

# Orchid Grower's Day

Saturday, June 27, 2009

10:00 AM to 4:00 PM

Guilford County Agricultural Center

3309 Burlington Road

Greensboro, NC 27405

The Triad Orchid Society is sponsoring a one day seminar for all orchid growers regardless of level of expertise. We are especially encouraging new orchid growers to enroll for this event. We will have knowledgeable orchid growers speaking on a variety of subjects plus a Q&A session and a hands on potting session. Your entry fee of \$25 includes lunch, a near blooming size plant, and a plant which you will pot up that day.

**Pre-registration is required.** Since we are furnishing lunch and plants we need to know in advance how many folks will be attending. **Please fill out the form at the bottom of the page and mail it along with your check for \$25 by June 20 to:** Kenneth Karb, 3918 Hazel Lane, Greensboro, NC 27408. Please make checks payable to Triad Orchid Society.

## Speakers

**Charlie Wilkins** is an avid orchidist whose real estate consulting supports his orchid habit. He has grown orchids for almost 40 years under fluorescent lights and high intensity lights, on windowsills, and in greenhouses. After 18 years in the DC area, Charlie and his wife, Leah, moved back to Greensboro to be near their children and grandchildren. His topic will be growing orchids in the home.

**Linda Thorne** is the owner of Seagrove Orchids in Seagrove. She specializes in phalaenopsis growing and hybridizing, which will be her topic for the day, but has numerous other species and hybrids represented in her greenhouses. She is an American Orchid Society judge and chairman of the Region 13 International Phalaenopsis Alliance.

**David McAdoo** is one of the founders of the Native Orchid Conference and Past President of the organization. He will be speaking on native orchids in North Carolina.

**Jack Kepley** is an avid orchidist and Past President of the Triad Orchid Society. He and his wife Margie have won numerous awards on their orchids. Jack will be joining the discussion at the end of the day to share his knowledge for successfully growing orchids.
